

Adding Beneficiaries to SmartBen

SmartBen is the new online benefits administration tool for PCA Retirement & Benefits, Inc. The site is accessible via the Internet at www.smartben.com and can be accessed 24 hours a day, seven days a week. The following steps will help you as you update Beneficiary information in SmartBen.

Before You Begin

What information do I need to have for SmartBen?

You will need to have the current address, phone number, Social Security Number, and Date of Birth for your Primary and Secondary Beneficiaries. SmartBen will prompt you for this information as you begin the Beneficiary process. You may want to collect this information so it is handy before you log into SmartBen.

What is a Beneficiary?

A beneficiary is the person who will receive the benefit of the life insurance policy or retirement plan funds upon the death of the person who has enrolled for coverage.

Primary Beneficiary:

In most situations, the Primary Beneficiary is the spouse of the enrollee. If you are not married, you may add another responsible loved one to receive the benefit from the payout of your insurance.

Secondary (or Contingent) Beneficiary:

Secondary Beneficiaries are often added since children (adult or minor) may be selected to receive the plan benefits in the event of the death of the Primary Beneficiary.

Note: While there is generally one Primary beneficiary who is assigned to receive 100% of the benefit, the Secondary Beneficiaries are usually assigned various percentages that equal 100%.

In the following pages, Steps 3 and 4 will walk you through:

- ➔ Adding your Beneficiary record into SmartBen using *People Manager*
- ➔ Selecting the plan and assigning your Beneficiary record using *Benefit Manager*
- ➔ Assigning the Primary and Secondary Beneficiaries and the percentage of the benefit that they will receive for each plan you are enrolled in using *Benefit Manager*.
