**RhumbLine Advisors, LP** seeks to match the performance of the Russell 1000 Value Index. RhumbLine uses a full replication approach in managing the Russell 1000 Value Index Fund. The fund owns all the stocks in the index with the exception of those stocks not meeting the PCA Moral Screening criteria.

**Huber Capital Management, LLC** Huber Capital Management, LLC (HCM) is committed to a disciplined, value-based investment process which utilizes best practices of both fundamental research and behavioral psychology to create a distinctive investment approach. This approach attempts to exploit equity market inefficiencies created by irrational investor behavior. HCM invest in stocks where, in their opinion, the present value of the company’s future cash flows exceeds the current market price. HCM identifies these investment opportunities by employing a rigorous, bottom-up investment process that emphasizes internally-generated fundamental research. HCM believes that the consistent application of this research process has the potential to provide superior long-term risk-adjusted performance.
