**Investment Objective:** To achieve long term capital appreciation by investing in a diversified portfolio of International (non-US) equities from both developed markets or countries (DM), and emerging markets (EM).

**Investment Strategy:** The International Stock Fund employs a complementary blend of international growth and value strategies, and is comprised of: 31.88% Dodge & Cox Funds; 31.87% BNY Mellon International Equity; 11.25% Aberdeen Standard Investments; and 25% Brandes Investment Partners, LP.

Dodge & Cox Funds’ investment strategy focuses on countries whose economic and political systems appear more stable and are believed to provide some protection to foreign shareholders. In selecting investments, the Fund invests primarily in companies that, in Dodge & Cox’s opinion, appear to be temporarily undervalued by the stock market but have a favorable outlook for long-term growth.

BNY Mellon International Equity is sub-advised by Walter Scott & Partners, Ltd., which seeks investment opportunities in companies with fundamental strengths that indicate the potential for sustainable growth. They build the fund’s portfolio from the bottom up through extensive fundamental research. The fund primarily invests in foreign companies located in developed markets, such as Canada, Japan, Australia, Hong Kong, and Western Europe.

Aberdeen also selects stocks utilizing a 'bottom-up' investment style which emphasizes company fundamentals. The fund employs a team approach, with asset managers based in each of the regions where they have. Long-term holdings with low portfolio turnover, and first-hand research, is central to the firm's strategy. The fund primarily invests in quality companies located in less developed countries in Asia, Africa, Latin America, and Eastern Europe.

**Mutual Fund Company:**

Dodge & Cox Funds—founded in 1930 and located in San Francisco, CA, Dodge & Cox has a stable and well-qualified team of investment professionals, most of whom have spent their entire careers at the firm.
